Business Challenges

Digisuite was trying to bring together everything under one roof for customers so they could easily shop/do business 24 hours a day and 7 days a week. But following their urge to provide digital solutions to customers, they needed a partner who could understand ERP and Ecommerce and have expertise in combining such Open source solutions.

This is where Aktiv Software approach Digisuite and strike their head. As this task was a bit complex and time consuming, they needed a support from a partner organization which could scale up their team and support their customers even after the France hours. They did had a choice of increasing in-house team but they were looking for a partnership where they could save some costs and avail similar quality approach.

Moreover, they were jammed with several on-going projects due to which their marketing and business strategies were going out of action. So, they thought of moving their focus to innovating strategies in order to let the digital transformation wave sustain.

Solutions

Looking forward to searching a suitable partner organization which could understand their requirements Digisuite brought Aktiv Software on board. Aktiv as a software development organization held a nice grip over ERP and Ecommerce solution. And it was like cherry on the cake when Digisuite found that Aktiv had a vast experience in dealing with such combi-

As a result, the onsite resources at Digisuite are now able to concentrate on new requirements and upsell new services to their existing clients. Aktiv also added round the clock management which has delighted their customers to a greater extent.

Partnering with Aktiv Software has given them a liberty to explore their manpower and scale up the digital transformation level.
